

Power Stroke Actuators

ME206

ME208SF

Internal Valve not included

ME207

Features:

- **Stainless Steel** all weather bracket design
- Easily field repairable without complete disconnection of internal valve
- Repairable with common automotive parts
- Heavy duty pneumatic actuator with 212° F. eutectic fire protection
- Specifically designed for Fisher® internal valves
- High gloss automotive black coating
- Operating Pressure Limits: Minimum - 20 PSIG
Maximum - 125 PSIG
Recommended - 20-25 PSIG

Power Stroke Actuators		
Part No.	Description	Fits
ME 206	Type #9 Power Stroke Actuator	Fisher® C402, C421, C427 2" & 3" Internal Valves
ME 207	Type #9 Power Stroke Actuator	Fisher® C403-24 Series Double Flanged Internal Valve
ME 207 SF	Type #9 Power Stroke Actuator	Fisher® C404-24 Series Single Flange Internal Valve
ME 208 SF	Type #24 Power Stroke Actuator	Fisher® C404-32 Series Single Flange Internal Valve
Accessories		
Part No.	Description	
ME 707	Quick Release Valve - 1/4" FNPT Inlets and Outlets	
ME 708	Air Pressure Regulator 0-150 PSI - 1/8" FNPT Gauge Ports - 1/4" FNPT Outlet with Mounting Bracket	
ME 709	1/4" FNPT x 1/4" MNPT LP Gas and Air Filter - Aluminum	

** All Power Stroke Actuators are supplied with heavy duty DOT approved 1/4" tube inlet quick connect swivel and all necessary hardware for easy installation. **
