

NASH HEALEY PARTS CATALOG

This Parts Catalog includes information covering all serviceable parts which are peculiar to the Nash-Healey Sports Car, Models 25160, 25260, and 25360. Parts not available for service replacement, due to cost, availability or nature of construction, have been omitted. All serviceable parts, not listed, unless otherwise specified in their respective group heading (i.e., Ref. Group 13.001), are identical to those parts used on the Nash Ambassador for the corresponding year and are to be found by referring to the proper Nash Parts Catalog for that year. It must also be noted that some of the parts listed in this catalog may no longer be available.

NOTE 1.001-1: Four types of engines were used intermittently on the 25160-25260-25360 series. They were: Type A - 1951 Nash Healey engine with 3 3/8" bore and English S.U. carburetors. Identical to the 51 60 Ambassador engine except for the components listed in this catalog. Type B - 1952-53 Nash Healey engine with 3 1/2" bore and English S. U. carburetors. Identical to the 52 60 Ambassador engine except for the components listed in this catalog. Type C - 1953 Nash Healey Engine with 3 1/2" bore and Carter Side Draft Carburetors located with a center to center distance of 16 7/8". Identical to the 52 60 Ambassador engine except for components listed in this catalog. Type D - 1953 Nash Healey Engine with 3 1/2" bore and Carter Side Draft Carburetors located with a center to center distance of 8 5/16". Identical to the 53 60 Ambassador engine except for components listed in this catalog. Serviceable engine components not listed in this catalog can be found in their respective parts catalogs listing 51 60 or 52 60 engine components.

DESCRIPTION

YEAR AND MODEL

PER CAR PART NO.

NOTE 4.001-1: Three types of carburetor linkages were used intermittently on the 25360 series. They Were:

Type A - Linkage used with S. U. Carburetors made in England.

Type B - Linkage used with Carter Side Draft Carburetors having a center to center distance of 16-7/8".

Type C - Linkage used with Carter Side Draft Carburetors having a center to center distance of 8-5/16".

From the following listing of serviceable components order those items which correspond with the type of carburetor your 25360 is equipped with.
